

Crazy Babies is the United States' #1 premier Ozzy Osbourne tribute band! Providing the most realistic look, sound and high energy feel of an actual Ozzy Osbourne concert experience, Crazy Babies is able to recreate all genres of Ozzy's entire solo catalog and favorites from his huge Black Sabbath career.

"Ozzy" Michael "Boyd" Quinton is Ozzy's doppelganger! His vocals and mannerisms while interacting with the audience sells the illusion of watching Ozzy Osbourne himself.

Guitarist Keith Holstein not only looks like Zakk Wylde, his playing style mimics both Mr. Wylde and Randy Rhoads, which makes this show that much more entertaining and believable. The veteran rhythm section drives this Crazy Train off the rails to an incredible Ozzy Osbourne concert experience...this band kicks ass!

Crazy Babies' hard work and professional approach make them a super entertaining show band seasoned musicians who are easy to work with, which we think is equally important. You will not be disappointed!
